Notes from HTML Meeting

November 28, 2018

Designer: Jenny Kim
Creative Director: Brandon Krisko

- Make responsive
  - Shrinking title when the screen size is smaller
  - content images shrinking too as screen size gets smaller
- Apply font style with more leading between lines, not too chunky
  - A font that would go along well with the monotype
  - Title looks really good
- Images look clean and very vaporwave style
  - Maybe adding a little bit more images on the sides for reference
- Adding a sidebar with music and menu bar
  - Click and scrolls down
- Adding more space between contents to separate
- Adding footer with designer and creative directors name
